

WAREESHA BURKI

ASPIRING FULL STACK JAVA WEB DEVELOPER

Lahore, Pakistan | +92 302 5716844 | burkiwareesha@gmail.com | [Linkedin](#) | [Github](#) | [Portfolio](#)

Aspiring Full-Stack Developer with a passion for building robust backend architectures and clean, functional frontend interfaces. Deep-diving into Java/Spring Boot and React to engineer end-to-end solutions. Proven ability to solve complex logical challenges, including transaction integrity and data persistence in multi-user environments.

AREA OF EXPERTISE

Languages: Java (Advanced Logic), C++, JavaScript (ES6+), HTML5, CSS3
Backend: Spring Boot 3, Spring Data JPA, Hibernate, RESTful APIs, RDBMS (MySQL/H2)
Frontend: React.js, Tailwind CSS, Responsive Design
Core Concepts: OOP, Atomic Transactions, Data Persistence, Exception Handling
Tools: IntelliJ IDEA, VS Code, Git/GitHub, Postman API Testing

KEY ACHIEVEMENTS & PROJECTS

- University Management System (Java Swing & OOP):** Engineered a comprehensive management system to handle complex institutional data structures and hierarchical user roles. Developed an interactive desktop interface using Java Swing, focusing on seamless user navigation and data organization.
- Multi-User Banking Engine (Java):** Developed a console-based financial engine implementing Atomic Transactions logic to ensure 100% data consistency during inter-user fund transfers. Integrated MySQL and JDBC for robust data persistence and session management.
- Professional Portfolios (React.js):** Designed and deployed high-performance portfolios, including a custom client project for Soban Munir. Leveraged reusable React components and responsive design principles to ensure a seamless experience across all device types.
- Metro Rush 3D (HTML, CSS, JS):** Built a web-based 3D game inspired by Subway Surfers. Implemented complex game physics, collision logic, and smooth animations using core web technologies (HTML5, CSS3, and JavaScript).
- Weather Intelligence App (React & REST API):** Created a real-time weather tracking application that fetches global meteorological data via External APIs. Focused on dynamic UI updates and efficient state management using React hooks.

PROFESSIONAL EXPERIENCE

- | | |
|---|-----------------------|
| • Java Intern Coding Samurai | Aug 2025 - Sep 2025 |
| • C++ Intern Apexcify Technologys | Sep 2025 - Oct 2025 |
| • Front-End Intern Developer Afynix Digital | Feb 2026 - March 2026 |

EDUCATION

Bachelors in Computer Science | Riphah International University

- Current Progress: 4th Semester
- Expected Graduation: 2028

Intermediate in Computer Science | Punjab Group of Colleges

- 2022 – 2024

ADDITIONAL INFORMATION

- **Languages:** English, Pashto, Urdu.
- **Certifications:** Foundational C# with Microsoft (FreeCodeCamp), Responsive Web Design (FreeCodeCamp), IoT & C++ (Netacad), Python Program Development (Coursera)
